JUNE PETERS WITH BOB LITTLE

Over the years, Greenwich Storytellers have developed a unique capacity to explore world oral literature and make it accessible to audience and club members alike in our fantastic Group Telling nights. Sometimes this experience sparks a flame that just won't stop flickering. June's been fanning some flames and tonight she is putting her own special touch to material first brought to us several seasons ago by old timer musician Dave Arthur when he directed our Group Telling of 2005, 'Down from the Mountains'. June is one of the top women storytellers performing in the UK at the moment. She is a versatile performer whose rich voice and musical talents make her work riveting, moving and memorable. She's joined by Bob the banjo player, who also plays with 'Oddfellers' and the 'Wandle Delta String Band.'
